### Community evenings on current topics

Shopping centre, traffic and commuting, history of Suurpelto have been some topics of our evenings. What would you like to hear?

## Urban farming and voluntary work for environmental actions!

We are arranging different kinds of activities to make Suurpelto a better place to live. Twice a year we are collecting trash from the parks and side-ways. We have built a deadwood fence for insects. We are eager urban farmers and guerilla gardeners. The street painting in the beginning of Piilipuuntie is made by us. Come and join us!
